## Hundreds Paid Last Respects To Mrs. Esther LeFils

Grave Ceremonies Conducted  
By Pahokee Chapter of  
Eastern Star

Farewell services for the late Mrs. Esther LeFils were held at the Community Methodist church on Monday afternoon, with the Berry Funeral Home in charge of the arrangements. The secession capacity of the church was inadequate to care for the company of friends who came out to pay her memory honor.

During the services, Mrs. Ruth West prestidated at the organ and during the services, Mrs. George Boydston sang two favorite selections of the deceased.

Clear across the wide space of the pulpit, and chancel were displayed a most beautiful collection of flowers, a method taken by friends who had known the deceased and had loved them. They had been gathered and held for Mrs. LeFils.

The services of the hour were in charge of Mrs. Leonard West, pastor of the church. Of the deceased, she has long been an active member in the work of the church. His message was a very comforting one, chosen from the pages of the Bible and from the Psalms.

A delegation of some 75 members of the Pahokee and Belle Glade chapters of the Order of the Eastern Star, turned out for the funeral. One who had been a Past Worthy Matron of the former chapter and one who was held in high esteem by her companion, attended.

The Pahokee chapter conducted the "Star" ritualistic ceremonies at the grave side at Woodlawn cemetery in Belle Glade, while the funeral was made prior to the funeral services friends had called at the Berry Funeral Home in Pahokee, so no review was made at the church services.

Pallbearers were C. J. Avey, A. E. McRitchie, Shelia Carlson, I. W. West, Pat Burke and J. D. Dell.

The list of family relatives who were present for the funeral services were:

Mr. and Mrs. T. A. Lee, Mrs. Robert Lee, Mr. and Mrs. John Lee, Mr. and Mrs. John Lee, Mr. and Mrs. Frank Thomas, F. Lee of Texas, Benjamin Lee of Maryland; Mr. and Mrs. Frank LeFils and John Lee, Mr. and Mrs. Lulu Moran, Mr. and Mrs. M. Dan Sanford; G. C. Robert, Donald and Isabel Lee, Lila, Geneva, Florida; and Mr. and Mrs. Joseph Thompson of Dania.

Labor Operators Hit Tough  
Season Up In The Virginias

Cliff Livingston, who took a crew of field laborers up into the Virginias to work on crops, has returned home having run into a bad weather and light crop situation.

The bad crop was delayed by cold weather and rain and when ready for harvest was not up to standard and brought little money on the market. The crew has never been back on the crew operations and rapidly disposed of available operative funds.

Livingston is of the opinion that when the Glades operators will show much profit this year from their northern ventures.

The Country Club of the Everglades got off to a fast start in a series of club activities this week. Cliff Livingston turned out for a blind bogy golf tournament on Saturday. Mrs. Cliff Livingston held a field of 22 entries with a 4, line 77 m.p.h. This plus a 100 m.p.h. handicap, had to cap many of the ladies' day events. Mrs. Livingston was trailed by Mrs. Harold Rubin and a host of the late entries, the ever popular "Shorty" Davis.

One of the best foursomes in the tournament, both in looks and in skill, were Marie Clause and Eddie VanFossingham, Bel. *Continued on page 4*

St. Lucie Cattle Did Not Like  
Kreamer Island Pasture

Two weeks ago a syndicate steers on the pasture lands of Aspey Bros., on Kreamer Island, in the vicinity of Ray of Pahokee.

The big brotes must have been

scouting their former home in St. Lucie county, for a single 50-ton truck took four cattle from the island and swam across the lake to various points. Four of the animals later dying on the bank from exertion and exhaustion.

Most of the animals were

hunted down, located in various spots about the east shore of the lake, the largest bunch being found in the vicinity of the Pahokee River. A dozen have been rounded up. The brand on these cattle is a triangle, upper bit with slope degree person leaving any of the strays are requested to contact Mr. Aspey.

On Saturday morning, while handling some of the cattle, one animal hooked a L. Tyson, of Cudjoe Key, and a sharp cut was inflicted. A wound that required surgical attention. Mr. Tyson was not serious injured soon being back on the job.

## Naval Reserve Asks For Radio Trainees For Camp Station

The Naval Reserve Division at the Jakey River, in the Glades area, has been an important spot in its services and is working with the local organization of the Reserves to give it proper equipment to carry on its work.

The Reserves have recently provided the local unit with a late model transmitter and receiving machine, which has been installed in one of the buildings at the Jakey River. This station is to be used for training men in radio technical education and will also be intended for service during the summer months.

The Jakey River base connection with the new Army base region set up at the Clewiston station, thus giving extensive outside station to the Jakey River.

The fishing crews will be selected, several on the river, and a half dozen on the lake, the crews being permitted to keep as many fish as they can catch.

Both parties to the controversy agree that gars, mud fish and turtles should be eliminated as possible, as they are the chief cause of destruction of food fish and will work together on that proposition.

Just where the new camp will be located has not been announced. This fishing deal involves many points such as an economic one, the making of a living by long hours of labor, and the expense of seeing their sports fishing opportunities not to decrease or be endangered, and the providing of fish for the people who need and demand such protein food.

Health Board To Establish  
Clinic For Chest X-Ray

Dr. Burton H. Austin, director of the Palm Beach Health Association, has announced that steps are being made for a program which will be open to all Palm Beach County people.

A chest examination to determine whether or not people are afflicted in any manner with the white plague of tuberculosis.

The chest survey for prevention of stoves services than any time past will start sometime in October.

New and old X-ray equipment will be utilized in this new work and the cost will reach from \$40,000 to \$60,000 persons in the county. The campaign will be sponsored by the County and County Boards of Health and the County Health Association, and the experts of these bodies and it will be the first time in the history of the county that an extensive home protection play begins.

Announcement has been made that a cancer clinic will be established at the St. Mary's hospital to carry on the work against that second life taking.

Jesus Brester Dies At Miami

Few Make Objections  
To Equitable Bond  
The Board of Education held its session as advertised and only six people came before it and more of those were seeking information rather than to file valuation objections.

Mr. Jesse H. Brester, aged 81, brother of Hugh J. Brester and brother-in-law of C. E. Reidel, a resident of Miami since 1911, died in that city last week, after a long period of declining health.

The deceased had a son, a daughter, a sister and two brothers.

Leeland Scholarship Funds

Leeland G. Keene of South Bay has been advised that the school has granted an additional \$400 to the school which granted last year, to permit the continuation and expected incomes from same.

## Lake Fishing To Be Submitted To Extensive Survey

Special Crews of Scientists and  
Expert Fishermen Will Carry  
On Data Collecting Facts

Members of the State Game and Fresh Water Fish Commission met with a special committee of industry and agriculture at Tallahassee on Monday to hear the latter's report and recommendations of its investigating of commercial fishing on Lake Okeechobee and its portions of the St. John's river, from a commercial standpoint.

The report submitted was far more favorable to the commercial fishing industry than to the arbitrary one set up by the Board, for future action will be directly along the line submitted by the Fisheries Association, more than a year ago, based on findings of Dr. Smith, a Miami, a government fish expert.

The report stated that this investigation could be carried out only by setting up a survey which would take from eight months to a year to complete, taking in a wide phase of every aspect of the lake's fish and fresh water areas in controversy.

Indications were given by the Commission that it would direct such a survey program, with the aid of the state's scientific and educational departments to gather the required data, to determine whether commercial seining of small fish and "skin" fish and predatory type fish, was detrimental to the fish in these waters.

The Reserves have given the Jakey River base area as an important spot in its services and is working with the local organization of the Reserves to give it proper equipment to carry on its work.

The Jakey River base connection with the new Army base region set up at the Clewiston station, thus giving extensive outside station to the Jakey River.

The fishing crews will be selected, several on the river, and a half dozen on the lake, the crews being permitted to keep as many fish as they can catch.

Both parties to the controversy agree that gars, mud fish and turtles should be eliminated as possible, as they are the chief cause of destruction of food fish and will work together on that proposition.

## It's Perpetual Motion—If You Ride Between Belle Glade and Clewiston

When he arrived at the Clewiston half mile from the lake, he found the road to be a dirt road. Some men were working on the road, and he stopped to talk to them. One man, John Betzner, was working on a jar of sawdust.

He asked Betzner what he was doing, and Betzner said, "I'm working on a sawdust motor." Betzner then asked him what he was doing, and Betzner said, "I'm working on a sawdust motor."

Representative John Bollinger is holding the button, while Betzner is holding the jar of sawdust.

## Presbyterians Purchase Church Equipment

With funds secured by the Ladies Auxiliary of the Everglades Presbyterian church, a purchasing committee has secured a fine individual serving machine and a hand mixer in the new church. From the same source a collection of table silverware has been purchased for use in the main.

On Saturday at the Auxiliary meeting, a shower was observed, at which donations of various kitchen and table service articles were donated including casseroles, saucers, plates, serving dishes, linens and stove equipment.

Rev. Herman Dam, the pastor, announces that the first communion service for the church will be held on Sunday night.

On Sunday night a delegation of members of the Memorial Presbyterian church of West Palm Beach, some of whom had recently addressed the local congregation during its formation period, were visitors at the service. They expressed satisfaction and interest in the progress which the Everglades church has made in securing its new church property.

## New Hearse Secured By Funeral Home

Sam Berry, of the Berry Funeral Home, is adding a new piece of equipment to his fleet of cars in the shape of a hearse.

Representative John Bollinger is holding the button, while Betzner is holding the jar of sawdust.

When he arrived at the Clewiston half mile from the lake, he found the road to be a dirt road. Some men were working on the road, and he stopped to talk to them. One man, John Betzner, was working on a jar of sawdust.

## First Shipment Of Stock Feeds Goes From Local Plants

Lott Farms and Borchardt Ship  
Cargoes of Meal to Jacksonville  
and Tampa Firms

The raising of field corn on a commercial basis in the Glades received its initial trial this spring and so far it has proven a satisfactory deal for all concerned.

On Tuesday of this week, harvest was made for the Glades when two car loads of corn products were shipped out of Belle Glade to the Grand Central, one ticketed to Jacksonville, the other to Tampa.

Each car contained 600 bags of ground meal of 100 pounds each, packed in trade grain feed sacks, and went to feed mixing firms, the meat of husk, cob and grain, each weighing 50 pounds.

With harvest as high as 85 bushels an acre coming into the feed mills, future prospects are good.

We offer you protected and exclusive territory. Good compensation. Write to us. Your name will not be revealed to the public in a lower rank than they hold at time of discharge from active duty.

Summer field training, which is highly regarded for recognition values by many recruit stations. Pay for home training and drill periods under certain conditions.

Advanced training with a particular unit, thus guaranteeing a peak of efficiency in combat work should the unit be called in an emergency.

Renewal of military life on initial basis with former comrades.

Department W.I.A. Aid Building Up Causal Propagation

A \$15,000, two year, year round, part and bird trapping and restocking program for Florida was approved by "Mr. S. E. Gandy and Mr. C. C. Gandy."

More than 100,000 quail will be trapped annually and distributed to areas where hunters have reduced the stock to vanishing point in the most effective way.

Franklin exerted a subtle influence on the Continental Congress. He was on one side a base relief of the face of Benjamin Franklin, Freemason, Statesman and Philosopher. Above the word Liberty, beneath the head is the sentence "In God We Trust". On the reverse side of the coin is the Declaration of Independence.

Franklin is also a base relief of George Washington. On the back of the coin will be a truncated pyramid with an eye catching design of glory. Above the triangle are the words Anna Coopers. Underneath the pyramid is the sentence Novus Ordo Seclorum. At the bottom of the coin is the number MDCCCLXXVI (1776).

The foreign symbolic design is Masonic in character, and Franklin undoubtedly suggested for the print.

Bear, Panther and Deer To Be Allowed in The Ocala Game Reserve

When the hunting season opens in Florida this fall, for the first time in the history of the reservation, the State Game Commission will permit the hunting and killing of bear and panther in the Ocala forest. Deer will also be on the game list. The bag limit will be one deer per day. The bear hunt will be hunting five days a week from November 1st to December 15th.

The school masters passed a resolution asking that the game law, as interpreted by the

GLADES CHEVROLET  
(Continued from Page 1)  
sulking score being 3 to 2. The Chevrolet boys dropped the game with a high score of 11 and a total score being a run, score 10.

The second game resulted in the Western Auto winning from Billy's Restaurant by the score of 7 to 6. The Chevrolet boys were showing a lot of improvement and should make a better showing during the rest of the schedule. In their first game they staggered Ralph's Market and won over them by one run margin. The score was 4 to 3.

Last Tuesday night the games between the Glades and Murphy's were rained out and were played on Wednesday night. The Chevrolet boys defeated Billy's Restaurant by the score of 10 to 9. The game was between the Western and Western Auto.

Western Auto was a tighter one, the score being 10 to 6 in favor of Jackie's boys.

Torah Glades never had an opportunity to play off of Ralph's Market as an opponent in the second game.

Waterway To Given A New Official Name

A. Fossey, head of the geography division of the Department of the Interior at Washington, has recommended to the Army Engineers that a new name be given to the navigation channel in the Everglades.

It is proposed to name the channel after the Major General who founded the U.S. Army Corps of Engineers.

Retired Major General F. B. Flanagan, 70, who served 20 years, has recommended to the Army Engineers that a new name be given to the navigation channel in the Everglades.

court, be so amended, that 10 months be established as the legal school year, with payment in accord.

Draftees Will Be Called To Service After August 25th.

Government confirmation has been released that General Hershey, who headed the Selective Service Commission during World War I, will again serve in that capacity under the new law.

Announcement is made that the call will take in men between the ages of 21 and 35, with the first draft call coming for the older age men so as to be able to get men into the service before the age limit precludes them.
